Raiyan Chandle

Full Stack Developer | AI/ML Engineer

+91-9325734259 | rrchandle@gmail.com | LinkedIn | Github

SUMMARY

I build scalable, AI-powered applications by combining the **MERN stack** with **Machine Learning, Deep Learning** and **Generative AI**. I enjoy solving complex problems through clean engineering, modern development practices, and software designed to be reliable and production-ready.

TECHNICAL SKILLS

- **Languages:** C++, Python, JavaScript (ES6+)
- **Tools & Platforms:** Git, GitHub, Docker, n8n, Antigravity
- **Deep Learning & Gen Ai:** Deep Learning, Transformers, Tensorflow, Keras, Langchain
- **Backend:** Node.js, Express.js, Mongoose, JWT, OAuth, Fastapi, flask, pydantic
- **DataBase:** MongoDB, SQL, Postgres, Prisma
- **Frontend:** React.js, Tailwind CSS, HTML5, CSS3
- **Machine Learning:** Machine Learning, scikit-learn, numpy, pandas

PROJECTS

Arogya - Telemedicine Platform for Rural Healthcare | Github-Arogya |Github-MedicoModel | Link
SIH 2025 Finalist (PS ID: SIH25018) | Team of 6

- Worked on a full-stack telemedicine platform (Patient/Doctor/Pharmacist/Admin dashboards) for rural healthcare access across 173 villages in Nabha, Punjab.
- **Developed a Women's Health module** (Menstrual calendar + adaptive cycle-prediction engine matching standard Flo.health accuracy) and developed **MedicoModel**, a Flask ML microservice for urgency triage, specialist routing, and consultation duration estimation with vital-based safety overrides.
- Implemented voice-based appointment booking using LLM-parsed speech-to-text for auto-booking.
- **Tech Stack:** React | Node.js | Express.js | MongoDB | Python | Flask | Scikit-learn | Gemini API

NEXUS - Smart School Management & Learning Platform | Github

- Built a full-stack school management LMS with role-based dashboards (Admin/Teacher/Student), JWT + Google OAuth authentication, and CRUD-based course, attendance, result, student, and faculty management.
- Implemented live classroom sessions, an interactive whiteboard, and automated attendance email notifications.
- Integrated AI features: Gemini-powered chat assistant and VAPI voice AI for student doubt resolution.
- **Tech Stack:** React | Node.js | Express.js | PostgreSQL | Prisma | JWT/OAuth | Gemini AI | VAPI | Jitsi Meet API

ResumeIQ - AI Resume Analyzer & Job Matching Platform | Github

- Built a full-stack platform analyzing resumes for ATS compatibility and matching candidates to jobs using LangChain.
- Built hybrid ATS scoring combining rule-based checks with LLM semantic analysis across keyword, formatting, and quantification sub-scores.
- Designed a two-stage job-matching pipeline (vector embedding filter + LLM re-ranking) scoring jobs 1-10 with skill match breakdowns.
- **Tech Stack:** React | Node.js | Express.js | MongoDB | Python | FastAPI | LangChain | ChromaDB

EDUCATION

Kolhapur Institute of Technology, **B.Tech CSE (AIML)**, Kolhapur, Maharashtra – **CGPA: 9.6** 2023–2027
S.I. Secondary School and Junior College, Furus, Maharashtra – **HSC: 88%** 2019–2021
Umme Khadija English Medium School, Visapur, Maharashtra – **SSC: 92%** 2019

ACHIEVEMENTS

- **Finalist, Smart India Hackathon (SIH)** - Dec 2025, Bathinda, Punjab
- **Prarambha Mini Hackathon - Best UI Award** - August 2025, DKTE, Kolhapur
- **PBL (Project Based Learning) Sem-V Winner** - Oct 2025, Kolhapur
- **LeetCode 150+ solved**

CERTIFICATIONS

- Machine Learning Specialization - Andrew Ng | Coursera | Link
- Oracle AI Foundations Associate - Link
- Google Cloud Career Launchpad - Generative AI Leader Track | Link
- Full Stack Web Development Bootcamp - Angela Yu | Udemy | Link
